Subject: RE: Hot Topics for Administrator's Visit

I agree, but hope we have something that can just be updated. I'll forward you a very short writeup that Jared sent to the Administrator this past weekend—he sends her a “weekender” every week.

Subject: Hot Topics for Administrator's Visit
Importance: High

Hi Jane,

I've just been asked by OPA to help identify 1-2 hot topics for the Administrator's awareness during her visit to So Cal next week and of course the information is needed by COB today. I've attached the latest hot topics list and for your quick reference provided the list of potential WTR issues below. Nahal and Audrey have indicated that they believe #5 would rise to the occasion.

Please let me know what you think and if there are additional items, or if I should check in with anyone on the management team. Once we have items identified we need to provide any updates to the information on the hot topics list.

1. Region 9 Drought Response Strategy
2. CA DWSRF/SDWA transfer from Dpt. Public Health to SWRCB
3. EPA Comments on BDCP
4. Saltworks/WOTUS in Redwood City
5. EPA concerns/letter to CA regarding UIC programs for oil and gas
6. OCS Permit for offshore platforms
7. Cyanotoxins at Hoopa Valley Reservation

Thanks,
Paul
